

**Tab XX**  
**Use of Clubhouse for Exercise Classes**

**Background**

Indoor exercise classes held in the clubhouse have historically been offered for a minimal fee paid by participants to the instructors. A request has been received from one of the exercise instructors to resume Fall classes in the clubhouse starting in September.

**Issues**

The Board has raised concerns and needs to revisit this issue to discuss the matters of (1) COVID-19 requirements, and (2) whether these classes should be treated as a business since fees are being charged by the instructors.

**Recommendation:**

The Board should discuss pros and cons surrounding of use of the clubhouse for exercise classes when a fee is charged.

**Motion**

TBD

---

Hi, Peggy:

I would like to see what our options are for indoor exercise classes this fall starting in September for Strength, Stretch, and Balance. I am working full time now and only have Wednesdays at 1:30-2:30 PM. Is that time slot open? Also I would like to see if Saturday morning is available (we can be flexible and use the basement if there are events) and possibly Sunday afternoons. I am considering 3 or 4 PM on Sundays. Can you let me know if any of these times are available? We will definitely keep our six foot distance from each other in classes.

Thank you!

Stephanie Vaughan
