

WEB ADVISORY GROUP DISSOLUTION TAB FOR BOARD

ISSUE:

The Lake Holiday website has been updated through a cooperative effort called the Web Advisory Group (WAG). Since we have an active Tech Committee, who is continuing through their roll to refine and maintain the current web site, with continual input from the Office and Board, and with the majority of updates complete, the WAG is no longer necessary.

BACKGROUND:

When the Lake Holiday website contractor was bought out by another company, and the contractor web support was discontinued, the Lake Holiday Tech Committee decided to create a new web site under an alternate construct. Several board and community members were concerned about the web being incomplete so the Board implemented the WAG to address/resolve/oversee the needed updates.

SUMMARY:

Due to the majority of web site updates complete, an additional oversight group is no longer necessary.

RECOMMENDATION:

Dissolve the WAG.

PROPOSED MOTION/ACTION:

Propose to dissolve the WAG.
